## WEB DEVELOPER

Senior at ASU majoring in Informatics with a passion for web development. Skilled in HTML, CSS, JavaScript, Java, React, React-native, and other languages. Completed multiple personal projects and participated in group projects showcasing my abilities. Seeking an entry-level web development position to start my career.

---

## SKILLS

HTML, CSS, JavaScript

DOM manipulation, Responsive  
Design

Communication

React, React Native, SASS

Problem-solving

Firebase & Node.js

Git & Github

Attention to Detail

---

## PROJECTS

### **BizLink Application (On-Going project)**

- Developing a mobile application using React Native, Firebase store and auth.
- Creating a user-friendly interface to connect business owners with potential customers.
- Implementing user authentication and database integration using Firebase to ensure secure login and data storage.

### **Mitra Journaling App (On-Going project)**

- Collaborating with a team to create a journaling app using React Native, GPT-3.5, and Firebase.
- Implementing user authentication and database integration to allow users to securely store their entries.
- Utilizing GPT-3.5 to provide insights to the user.
- Helped implement the sign-up page with firebase auth and created the UI for the homepage

### **Library Project**

- Created a web application using JavaScript and DOM manipulation to manage a digital library.
- Designed a user interface for users to add and remove books, and to update book information.

### **React Portfolio Website**

- Developed a portfolio website using React, SASS, and responsive design principles.
- Showcased personal projects and skills using creative layouts and interactive features.

### **To-Do List**

- Developed a to-do list using JavaScript, functions, promises, and lists to allow users to create an account and add tasks.
  - Integrated an SQLite database to store task data and enable users to view completed and incomplete tasks.
  - Implemented functionality for users to view all tasks, set tasks as complete, and log out or exit the program.
- 

## EDUCATION

### **Arizona State University, Tempe, AZ**

Bachelor of Science in Informatics, Expected Graduation: December 2023
